

PEDRO VEGA

TECHNICAL WRITER | UX WRITER | CONTENT DESIGNER

SUMMARY

Technical and UX Writer with four years of experience spanning physical hardware and developer software, specializing in zero-to-one manuals, REST APIs, SDK guides, and user-centered content design. Applies a hands-on "dogfooding" approach by spinning up local environments and testing implementations firsthand to ensure real-world accuracy across all documentation formats. Embeds within agile teams to shape intuitive, WCAG-compliant UI text, streamline templates through Docs-as-Code practices, and lead localization efforts for global markets.

EXPERIENCE

Technical Writer, Self-Employed

Remote | April 2024 - Present

- Owned the full documentation lifecycle for developer-facing projects, delivering API references and SDK guides for cloud data routing architectures, including third-party observability integrations for Datadog log pipelines and Galileo LLM tracing.
- Documented TypeScript SDK methods and logic for the Sui blockchain platform, producing quickstarts and walkthrough guides with working code examples.
- Authored developer cookbooks and tutorials, including a comprehensive guide on setting up Postman mock servers to validate REST API endpoints, and enforced style guides using Vale.
- Managed OpenAPI specifications to document REST API endpoints using the Swagger Petstore reference API, demonstrating end-to-end API documentation architecture.
- Integrated generative AI tools and Model Context Protocol (MCP) servers directly into a local CLI environment, connecting Vale, DeepL, and Figma to a Gemini CLI, to automate linting, translation, and development workflows.
- Engineered an advanced search architecture across custom HTML and Docusaurus sites by integrating Algolia and AskAI, delivering generative AI and semantic search functionality for complex documentation.

UX Writer, Culangex

Remote | December 2024 - January 2026

- Collaborated with cross-functional teams to co-author a comprehensive style guide that ensured consistent brand voice and met WCAG accessibility standards.
- Partnered with the agile development team to manage UI text, error messages, and tooltips to ensure seamless content integration throughout the software development lifecycle.
- Served as a key member of the Spanish localization team, translating user-facing content to position the product for a successful launch in Spanish-speaking markets.

Technical Writer, Felix Storch Inc.

The Bronx, NY | March 2022 - February 2024

- Managed the release cadence for 5 distinct consumer and medical hardware brands, actively writing and authoring a significant portion of over 150 original and legacy manuals.
- Designed and implemented new document templates, successfully reducing manual production times by 40%.
- Improved product support and accessibility for LATAM markets by translating more than 25 technical documents into Spanish.

English Tutor, Self-Employed

New York, NY | November 2014 - March 2022

- Educated and guided students in mastering fundamental writing mechanics and comprehending complex texts, utilizing targeted mini-lessons to clarify challenging concepts and address individual learning needs.
- Systematically monitored student performance and provided constructive feedback, demonstrating a pedagogical approach directly applicable to leading contributor training and ensuring documentation quality.
